Hello, all –

Thanks for the edits and suggestions, especially the sensitivities around “cleanup”.  
I’ve revised it per your edits (revision is included below); the only info I need now is who to list re: program manager(s).

Thanks – Julie

You’re invited to come learn about the ongoing work at the Eastern Michaud Flats Superfund Site!

EPA is hosting two informal community open houses where you can come and get information about the current efforts to address contaminated soils and groundwater at the Simplot Don Plant and the former FMC Corporation property west of Pocatello. A number of posters will be on display to help you better understand the Superfund activities at these sites. Representatives from EPA’s Superfund Program will be available to discuss the past, current and future activities at these two sites and to take any questions you might have regarding the status of the Superfund work.

Please share this announcement with your organization members, neighbors, community members and others.

**Wednesday, March 11**

4:00 – 7:30pm
